you no longer have to.

LaserTouchOne™
pain relief in the palm of your hand

LaserTouchOne™

pain relief in the palm of your hand

“So many people out there suffer from chronic pain and they don't know what to do about it. I got relief and it didn't take hours or days; it was immediate. It was awesome and I was sold. I don't know of any athlete that can't benefit from it and I actually think it would help anybody.”

- Sherri, 37, former professional cyclist

What Is the LaserTouchOne?

The LaserTouchOne is a breakthrough pain relief device. And it's the only device available to consumers that combines low-level laser therapy and micro-current electrical stimulation.

Plus, clinical study results show it's **93% effective in decreasing pain**. It is also:

- A safe alternative to surgery and medication
- Now available without a prescription
- Easy to use
- Handheld, lightweight and portable
- Cleared by the Food and Drug Administration (FDA)

Backed by a 30-day money-back guarantee
